IMPERIAL BRASS
MANUFACTURING CO.

April 25th, 1922.

Imperial Brass Manufacturing Co.
1476 Broadway
New York City

Dear Sirs:

We require for attaching to our front door a sign to read as per the enclosed memorandum. The capital letters, which are to match the companion sign, should be one inch in height, and the smaller letters $5/8$ of an inch.

The sign is of brass, the letters being punched into the metal and then filled with a black composition. Doubtless, you will recognize the method. The sign should be 19 inches wide by $5\frac{1}{2}$ inches high.

I also enclose a rough rubbing of the companion sign.

Should there be any details about which you are not clear, kindly call me by telephone - Wadsworth 7735, and in your response state how soon the work could be completed.

Very truly yours,

Secretary
